

**FOR IMMEDIATE RELEASE**

June 27, 2019

Contact: Chrissie Howorth – V.P. of Philanthropy and Communications

VNA Health Care is pleased to confirm the completion of the expansion of the VNA Health Center located at 1400 Indian Avenue, Aurora, IL 60505. This expansion included the construction of eleven additional exam rooms and a wellness kitchen.

Services at this location include Family Practice, Internal Medicine, Obstetrics and Gynecology, Case Management, Care Coordination and Lab. Wellness classes including prenatal classes and parenting classes are also being offered at this location. More information on upcoming classes can be found on the calendar located on the VNA website: [www.vnahealth.com](http://www.vnahealth.com).

VNA continues to welcome new patients at all locations by appointment and families and individuals can also simply walk in for care without an appointment.

“We are delighted to be able to offer the same great services at both of our Aurora locations. It just makes it so much more convenient for our patients to get care close to their homes,” said Claire Dobbins, Chief Clinical Officer.

This construction was supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of a Health Infrastructure Investment Program C8DCS29179 award totaling \$1,000,000 which represents 48.1% of the total project. An additional \$1,079,796 (51.9%) of the project was financed with non-governmental sources. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.

*VNA Health Care operates 14 clinics in suburban Chicago and serves over 72,000 people a year. VNA is nationally ranked as a top performing health center as a result of patient outcomes such as prenatal care, adolescent weight screening and counseling, vascular disease treatment, blood pressure control, healthy birth weights, and asthma care. VNA’s combination of convenience (by appointment or walk-in), patient-centered technology and expert care delivered with respect and compassion have led to these results. VNA is accredited by The Joint Commission.*
